

It's Time to shed Light & Certainty on SPLA

Compliance & Cost Control for Cloud Service Provider

➤ **Christoph Harvey, CEO, CPL24**

SPLA Reporting: Allow me the comparison....

UK water companies still use 'magic' dowsing rods to find leaks, despite no supporting scientific evidence

'Every properly conducted scientific test of water dowsing has found it no better than chance,' says scientist Sally Le Page

They know and they are coming....

....up to 30%

Want smooth sailing? Key Customer Benefits:

▶ **Cuts the cost & efforts of monthly SPLA reporting by 90% plus**

- ▶ CPL24 not only provides full IT asset management of the hosters / CSPs complete infrastructure, it also monitors it and delivers an audit compliant SPLA report at the push of a button at any time.

▶ **Lengthy and expensive audits are a thing of the past**

- ▶ CPL24 not only tracks your today, but contains change management and archives your history, so that, at the time of an audit, specified for the timeframe of the audit, it will deliver the reporting data down to user and machine levels in relation to the then relevant contracts
- ▶and all that data is recorded and remains in the system 100% revision proof
- ▶ with CPL24 you can concentrate on running your business, knowing that you will not be caught out in matters of licensing compliance

▶ **Implementation is a matter of days**

- ▶ CPL24 is usually installed in 1-3 days, allowing for a full first inventory in days.

Want smooth sailing? Key Customer Benefits:

- ▶ CPL24 is cost effective in its implementation, roll-out and cost-of-ownership.
- ▶ It automates your license and asset management and insures audit-proof licensing, avoiding unnecessary and often expensive re-licensing costs.
- ▶ **In short:**

CPL24 simplifies & secures your business and pays for itself over time.

CPL24, a truly unique Solution

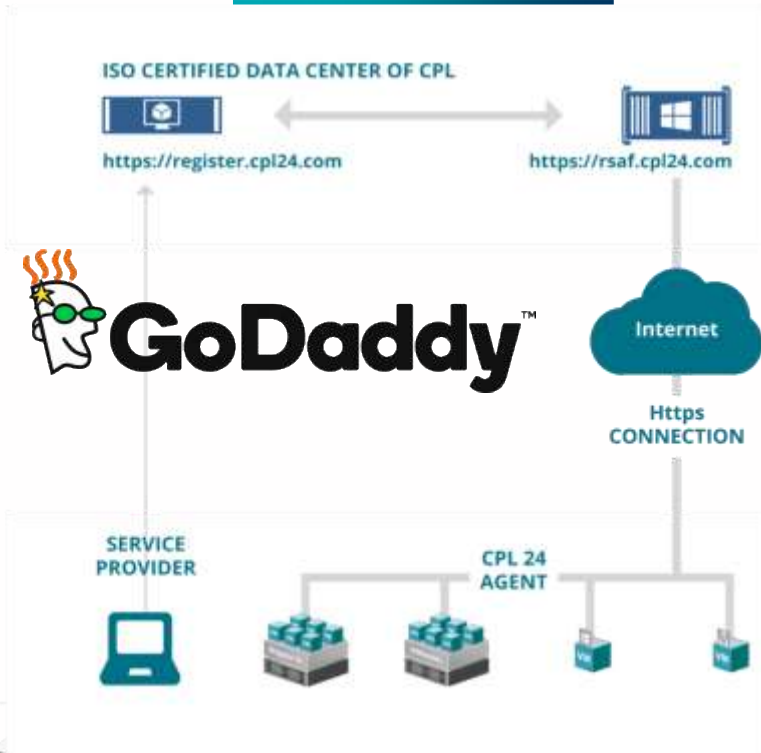

- ▶ as the result of 20 years combined SPLA and ITAM know-how, CPL24:
 - ▶ is the **only solution on the market, which covers the entire SPLA catalogue** in automated processes (especially User SAL)
 - ▶ **covers all SPLA contract rules**, like possible vs. actual use of software, true peak usage reporting, license assignments taking into all possibilities into account, i.e. one-click views (and associated reports) between deployment and reporting summaries
 - ▶ **all transactions are logged with time stamps**, based on time from / time to
 - ▶ **continuous monitoring of VM movements** between hosts as well as customers, also generating licensing recalculation where appropriate
 - ▶ **optimizes reporting** for the customer based on his SPLA contracts and their validities

CPL24, a truly unique Solution

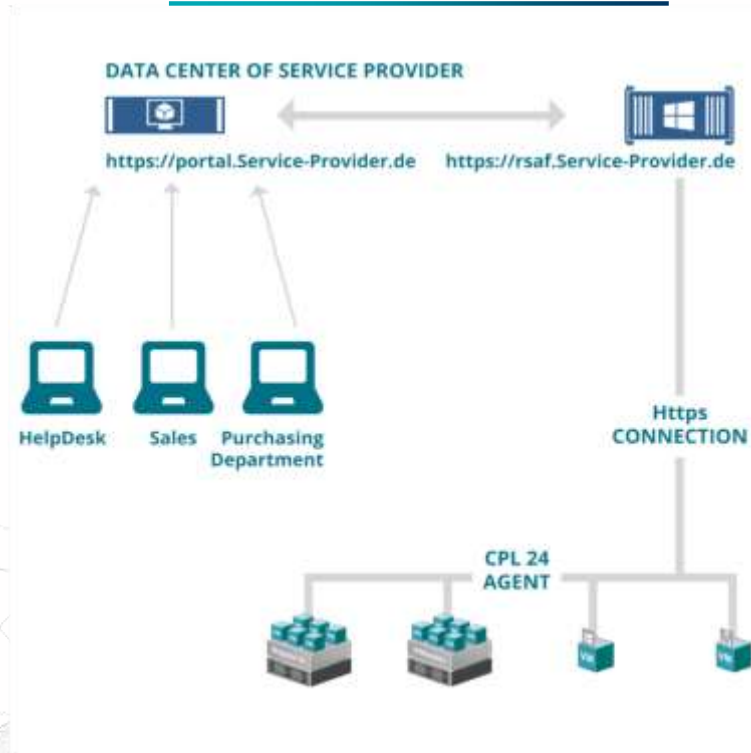

- ▶ **only solution which can run a complete inventory** integrated in the solution. No technology restrictions (i.e. OSE devices with identical names), no proprietary communication ports (no security risk).
- ▶ **only solution that can generate drill down reports to an individual system or user**, including time based reporting to compare for example monthly, quarterly or yearly trends and data.
- ▶ **only solution that today can track user based licenses**, differentiating between user accounts (i.e. service user, resource accounts, admin accounts, etc.).
- ▶ **automated reporting structure** by customer enrollment number and pooling / exclusion of below \$1k clients.
- ▶and the beat goes on

CPL24 Architecture Highlights

Cloud Architecture

On-Premise Architecture

- ▶ CPL24 agent works for devices starting from XP/2003, does not require a separate installation by customer, but gets rolled out with implementation, given customer several choices on the how (i.e. via scheduled task, IP ranges, etc.).

- ▶ Completely HTTPS protocols based, allows all and any devices connected to the internet to be part of the infrastructure
- ▶ CPL24 RSaF web service is stateless IIS service, allowing for CPL24 to scale in Azure. The RSaF web service also allows multi-hop data delivery.
- ▶ Free to choose between Windows or web client. Web client is 100% java script, i.e. no additional client plug-ins.
- ▶ CPL24 cloud allows for admin users to use Microsoft account login (OAuth2).

- ▶ License- & Software and IT Asset Management:
 - ▶ ...for 40.000 Microsoft / 150.000 UNIX Systems /10 entities in Europe
 - ▶ ...audit-proof license management for Microsoft SPLA
 - ▶ ... Automated monthly SPLA reporting to Microsoft
- ▶ ...individual customization:
 - ▶ Synchronization of contract data between the 10 GoDaddy Europe companies to CPL24 (via existing CPL24 API)
 - ▶ automatic creation of CPL24 customer data from contract data
 - ▶ Matching of contract and inventory data
 - ▶ Individualization of the inventory agent for customer inventory systems
 - ▶ GUI design customization for custom branding & CI (without losing update security)

.....and here comes the kicker!
